KNIME Project Upload to GitHub - Evidence PDF

Student: Paolo Gorospe
Course and section: CS0065 - Intelligent Systems, AN43
Repository: SatoruAkaibara/Gorospe-Paolo-CS0065-AN43
Date: 16 September 2026

This evidence record documents the project-folder preparation, Git commit and push, and public GitHub verification required by the student guide.

Required project files

File	Purpose
DemoEarlyWarningTool.knwf	Exported KNIME workflow package
student_performance_knime.csv	Included dataset for CSV Reader configuration
README.md	Project, algorithm, and run instructions
Gorospe_Paolo_KNIME_GitHub_Evidence.pdf	This step-by-step evidence document

Screenshot 1 - Project folder prepared

The required project folder contains the exported workflow, dataset, README, and this evidence PDF.

```
C:\...\work\repo\DemoEarlyWarningTool

Mode Length Name
----
-a--- 799762 DemoEarlyWarningTool.knwf
-a--- 1920 README.md
-a--- 918 student_performance_knime.csv
-a--- [PDF] Gorospe_Paolo_KNIME_GitHub_Evidence.pdf
```

Caption: The folder was organized using the required DemoEarlyWarningTool name and the exact required filenames.

Commands used - Git initialized, committed, and pushed

The project files were staged in the repository, committed on the main branch, and pushed to GitHub without force-pushing.

```
$ git status --short

M README.md

?? DemoEarlyWarningTool/

$ git add .

$ git commit -m "Add KNIME workflow and project files"

[main 230e29b] Add KNIME workflow and project files
4 files changed, 72 insertions(+)

$ git push -u origin main

To https://github.com/SatoruAkaibara/Gorospe-Paolo-CS0065-AN43.git
18e07af..230e29b main -> main

$ git add .

$ git commit -m "Use supplied student performance dataset"

[main bd8dd16] Use supplied student performance dataset

$ git commit -m "Document supplied CSV configuration"

[main c2fc164] Document supplied CSV configuration

$ git push
```

Caption: The command sequence created the project history and pushed the final CSV and documentation updates to the remote repository.

Screenshot 3 - GitHub repository root

Equivalent GitHub evidence for the commands above: the public repository root shows the DemoEarlyWarningTool project folder and the latest commit on main.

10 pages | Commands plus GitHub-browser evidence pages

Caption: GitHub opens the evidence PDF and provides the raw-file download control.

Actual browser screenshot - GitHub repository root

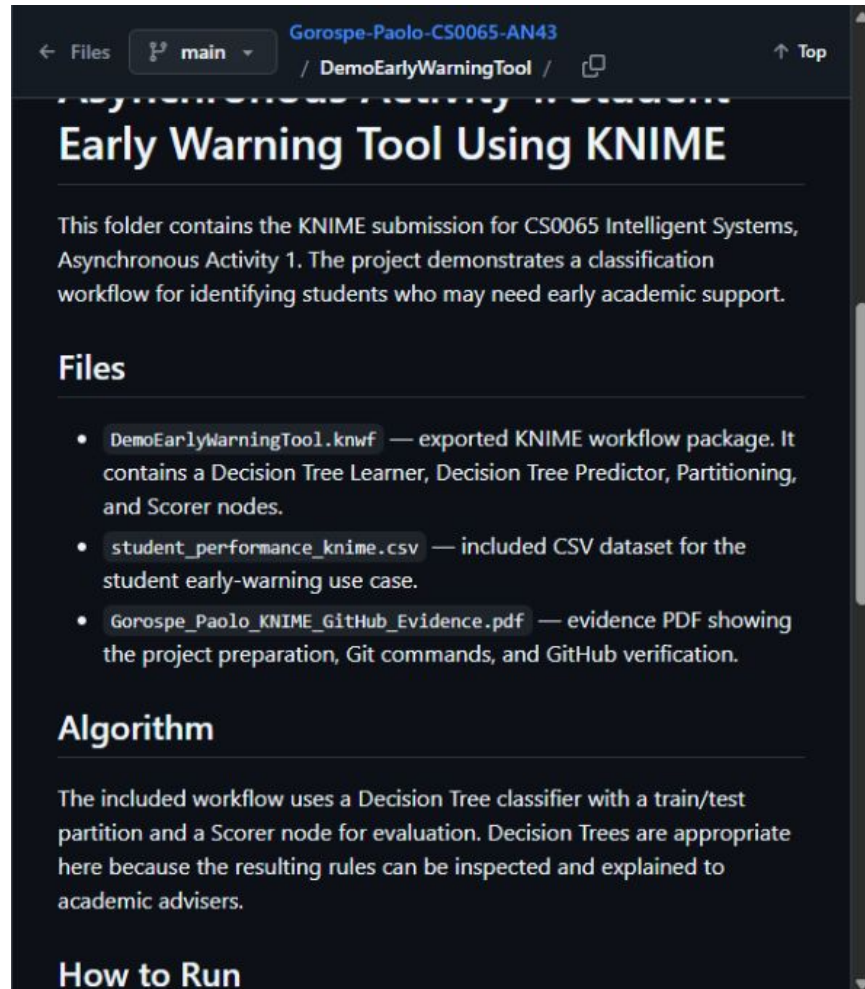

Captured from the live public GitHub repository page. The root page shows the DemoEarlyWarningTool folder, the current main branch, the Public repository label, and the latest commit.

Caption: Live browser evidence of the public repository root and its current commit.

Actual browser screenshot - DemoEarlyWarningTool folder

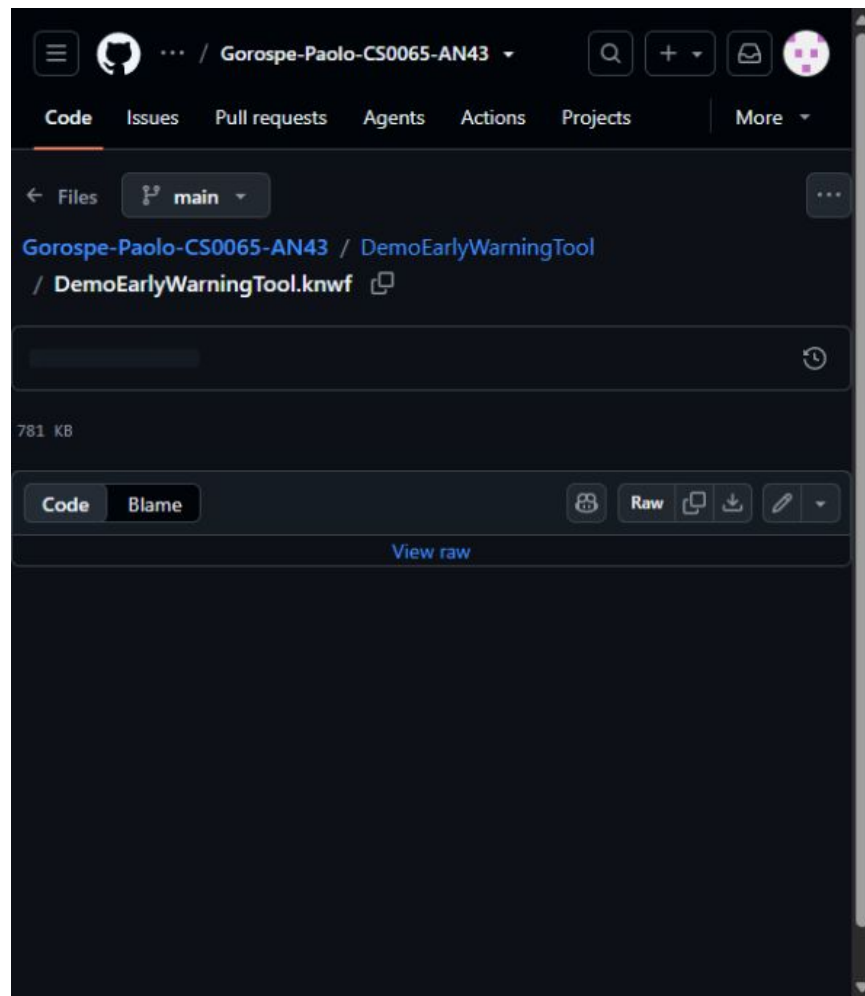

Captured from the live GitHub folder page. The folder listing shows every required deliverable together.

Caption: Live browser evidence of the DemoEarlyWarningTool folder contents.

Actual browser screenshot - KNIME workflow file

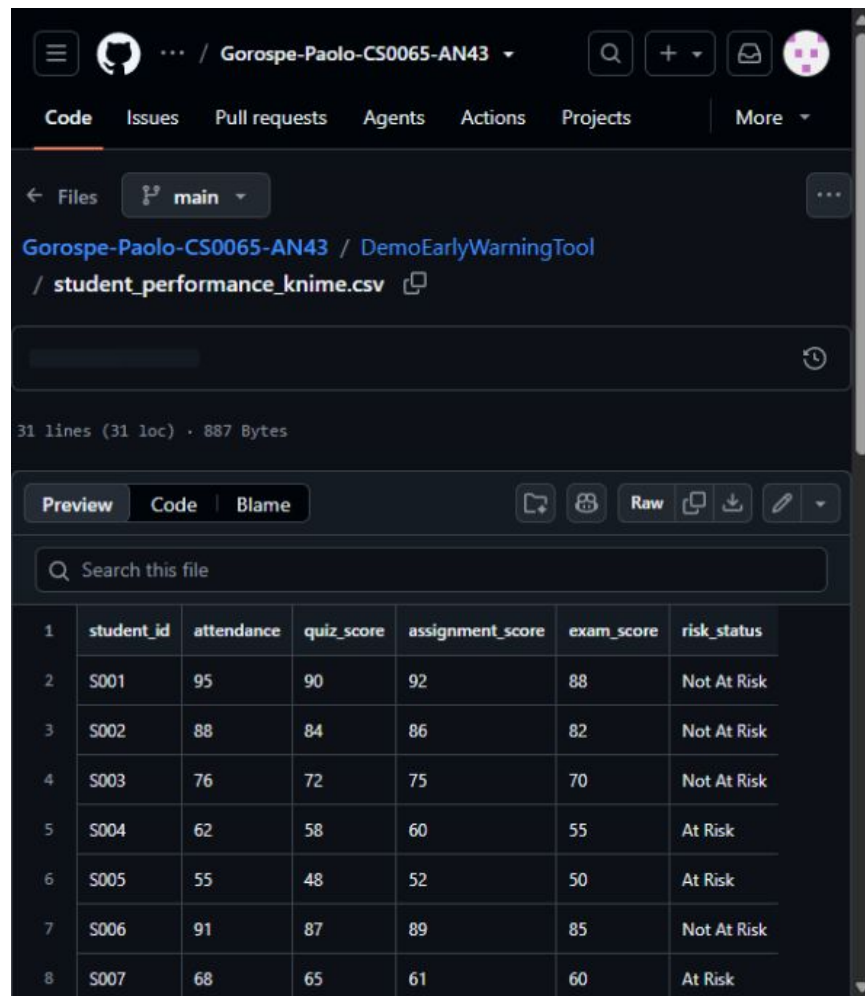

Captured from the live GitHub file page. The page identifies the exported workflow and exposes the Raw and Download controls.

Caption: Live browser evidence that the workflow is present with the required .knwf extension.

Actual browser screenshot - supplied CSV dataset

Captured from the live GitHub CSV page. The header and student-performance records are visible in GitHub's preview.

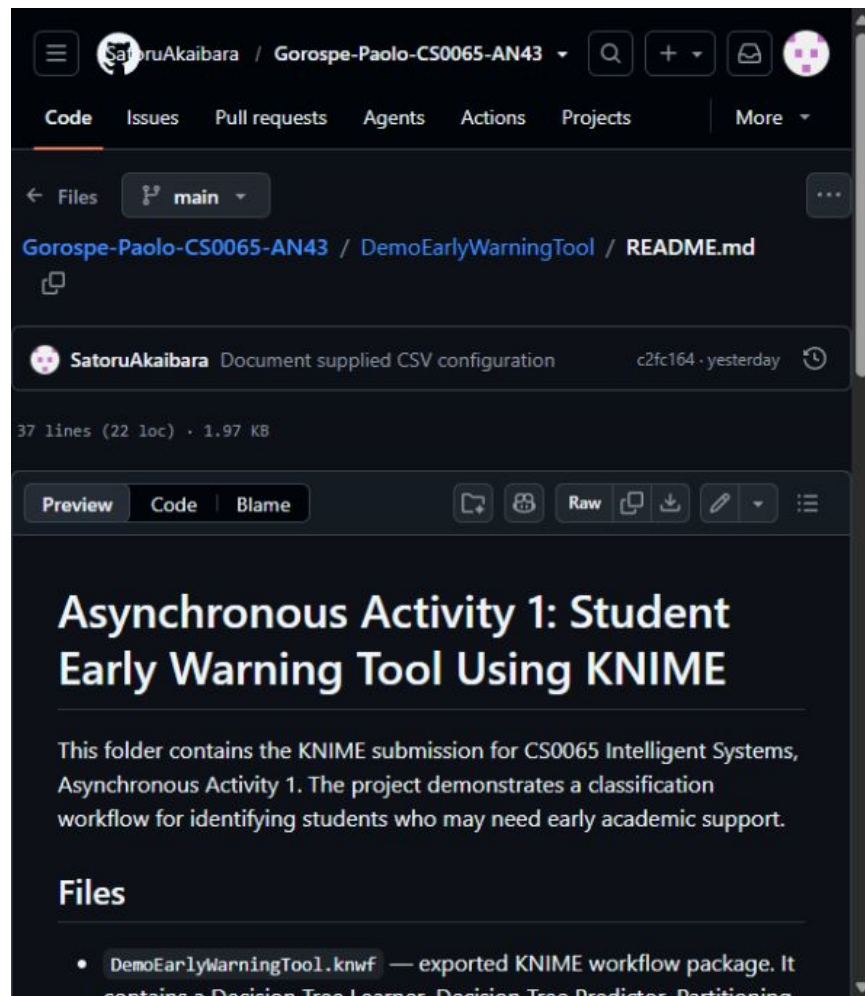

The screenshot shows a GitHub repository page for 'Gorospa-Paolo-CS0065-AN43'. The file 'student_performance_knime.csv' is selected, and its preview is displayed. The preview shows a table with 7 columns: student_id, attendance, quiz_score, assignment_score, exam_score, and risk_status. The table contains 7 rows of data, with the first row being the header and the subsequent 6 rows being student performance records. The table is displayed in a dark theme with a light gray border around the data cells.

	student_id	attendance	quiz_score	assignment_score	exam_score	risk_status
2	S001	95	90	92	88	Not At Risk
3	S002	88	84	86	82	Not At Risk
4	S003	76	72	75	70	Not At Risk
5	S004	62	58	60	55	At Risk
6	S005	55	48	52	50	At Risk
7	S006	91	87	89	85	Not At Risk
8	S007	68	65	61	60	At Risk

Caption: Live browser evidence of the supplied dataset and its expected columns.

Actual browser screenshot - README.md

Captured from the live GitHub README page. The rendered README shows the project title, files, algorithm, and run instructions.

Caption: Live browser evidence that README.md is present and rendered correctly.

Actual browser screenshot - evidence PDF

Captured from the live GitHub evidence-PDF page. The filename, public repository breadcrumb, and download controls are visible.

The screenshot shows a GitHub repository page for 'Gorospa-Paolo-CS0065-AN43'. The breadcrumb path is 'Gorospa-Paolo-CS0065-AN43 / DemoEarlyWarningTool / Gorospa_Paolo_KNIME_GitHub_Evidence.pdf'. The file is a PDF named 'Gorospa_Paolo_KNIME_GitHub_Evidence.pdf' with a size of 13.3 KB. A commit message from 'SatoruAkaibara' is visible: 'Add GitHub browser screenshots for each file a6803f4 · yesterday'. Below the file name, there are icons for opening, downloading, and editing. The PDF content is displayed below the file viewer.

Asynchronous Activity 1

KNIME Project Upload to GitHub - Evidence PDF

Student: Paolo Gorospa
Course and section: CS0065 - Intelligent Systems, AN43
Repository: SatoruAkaibara/Gorospa-Paolo-CS0065-AN43
Date: 16 September 2026

This evidence record documents the project-folder preparation, Git commit and push, and public GitHub verification required by the student guide.

Required project files

File	Purpose
DemoEarlyWarningTool.knwf	Exported KNIME workflow package
student_performance_knime.csv	Included dataset for CSV Reader configuration
README.md	Project algorithm, and run instructions

Caption: Live browser evidence that the evidence PDF is accessible from the DemoEarlyWarningTool folder.

Final verification checklist

- [x] Repository opens using the submission link
- [x] Repository visibility is Public
- [x] DemoEarlyWarningTool folder is visible
- [x] Workflow filename ends in .knwf
- [x] README.md is present with no .txt suffix
- [x] Dataset is included in the Demo folder
- [x] README identifies project, workflow, algorithm, and run steps
- [x] Evidence PDF is included and opens from GitHub
- [x] Latest project commit is visible on GitHub
- [x] Workflow download/import and CSV Reader configuration instructions are documented
- [x] Git commands and equivalent GitHub screenshots are included
- [x] A GitHub-browser page is included for each required file

MS Teams action: paste the repository root link below into the assigned activity and select Turn in after reviewing the online files.
